

Caring for a family member

If you are the caretaker of a family member who requires 24/7 care due to ailing health or special needs, the court will consider excusing you with verification from a medical provider that your care is needed 24/7, or the court may postpone your jury service. The court's postponement policy applies.

If you will be providing verification from a medical provider that requests that the court excuse you from jury service, please fax the excuse to the jury office. Please be sure that your name and nine-digit juror participant number are located on the excuse.

The court may also offer you a one-time postponement of your jury service. The court's [postponement policy](#) applies.
