

### **DISCLOSURE OF ASSERTED CLAIMS AND INFRINGEMENT CONTENTIONS**

Not later than 14 days after the initial scheduling conference, a party claiming patent infringement shall serve on all parties a "Disclosure of Asserted Claims and Infringement Contentions." Separately for each opposing party, the "Disclosure of Asserted Claims and Infringement Contentions" shall contain the following information:

- a) Each claim of each patent in suit that is allegedly infringed by such opposing party, including for each claim the applicable statutory subsections of 35 U.S.C. §271 asserted;
- b) Separately for each asserted claim, each accused apparatus, product, device, process, method, act, or other instrumentality ("Accused Instrumentality") of each opposing party of which the party is aware. This identification shall be as specific as possible. Each product, device, and apparatus shall be identified by name or model number, if known. Each method or process shall be identified by name, if known, or by any product, device, or apparatus which, when used, allegedly results in the practice of the claimed method or process;
- c) A chart identifying specifically where each limitation of each asserted claim is found within each Accused Instrumentality, including for each limitation that such party contends is governed by pre-AIA 35 U.S.C. § 112(6) or AIA 35 U.S.C. § 112(f), the identity of the structure(s), act(s), or material(s) in the Accused Instrumentality that performs the claimed function;
- d) For each claim which is alleged to have been indirectly infringed, an identification of any direct infringement and a description of the acts of the alleged indirect infringer that contribute to or are inducing that direct infringement. Insofar as alleged direct infringement is based on joint acts of multiple parties, the role of each such party in the direct infringement must be described;
- e) Whether each limitation of each asserted claim is alleged to be literally present or present under the doctrine of equivalents in the Accused Instrumentality;
- f) For any claim in a patent that claims priority to an earlier application, the priority date to which each asserted claim allegedly is entitled;
- g) If a party claiming patent infringement wishes to preserve the right to rely, for any purpose, on the assertion that its own apparatus, product, device, process, method, act, or other instrumentality practices the claimed invention, the party shall identify, separately for each asserted claim, each such apparatus, product, device, process, method, act, or other instrumentality that incorporates or reflects that particular claim; and
- h) If a party claiming patent infringement alleges willful infringement, the basis for such allegation.
